

REHS OUTREACH MATERIALS

This page will be a resource center for REHSs who wish to increase public awareness about the roles and responsibilities of REHSs by developing presentations and demonstrations for classrooms, youth groups, service organizations, career fairs, and other such gatherings. It will contain informational materials and suggestions which have been developed by others who have given similar presentations.

The web page will be linked both to the California Environmental Health Association (CEHA) and the Environmental Health Specialist Registration Program web sites. If you have such materials in an electronic format to share, please email them to Margaret Blood at REHSprog@dhs.ca.gov so that they may be posted on this web page for others to use.
